

Ticketing

Besides for enabling organizations to charge new registrants for products (like t-shirts, for example), Rallybound also features the ability to sell products to donors. This allows donors to buy something and have the payment count towards the goal of a fundraiser, team, and/or the campaign. The uses for this feature are numerous, but to list just a few:

- Sell tickets to a gala event, where payment for the ticket is associated with the specific fundraiser who attracted them
- Sell raffle tickets as part of a fundraising campaign
- Sell magazines as a part of a fundraising campaign

If you would like to set up ticketing for your campaign, please contact us.
