

# How to edit organization information

Organization details and information can be edited in the [Org Admin interface](#). This can be done under the Campaigns tab at the root-organization level by clicking the info button in the upper right hand side.

Organization information includes Org Name, Address, Phone, Tax ID, and Website. This information can be used in [auto-responders](#) and in [editable areas](#) on the site using [placeholders](#).

Any administrator who has Campaign Edit permissions for the organization can edit the organization information.
