

# ID Description and Legend for Reports

Below is a description of the various ID's found within reports.

Campaign Name	Description
DonationID	ID given for each donation that occurs
RegistrationID	ID given for each registration record created
PaymentID	ID Associated with a payment. There can be one Payment ID for several transactions (multiple donations and registrations)
Refunded PaymentID	ID Associated with a refunded payment. When a refund occurs there will be a Payment ID and a Refunded Payment ID issues.
Recurring Donation ID	ID Associated with a recurring donation
TransactionID	ID/code that comes back from the processor after a transaction. Similar to the Payment ID where it can be tied to more than one transaction (donation/registration) but indicates the transaction took place at one time.
Donor UserAccountID	
DonorID	ID associated with a donor.
UserAccountID	ID Associated with a useraccount. This is anyone in the system: donor, registrant or contact. This is different from a registrant or donor ID. <b>This is the universal ID given to a contact across an organization.</b>
MemberID	ID associated with a fundraiser.
GoalID	ID Associated with a goal
TeamID	ID Associated with a team
TeamGoalID	Team's Goal ID
Donation To GoalID	A Goal ID to whom the donation was credited.
TicketID	ID Associated with a ticket.
StatementID	ID given for each statement, or billing invoice, that goes out.
Global Member ID /Group Member ID	ID given to a fundraiser that spans multiple campaigns and ties back to the client.

On the Registrants report there will be two columns titled "Amount Raised" and "Total Amount Raised".

- "Amount Raised" shows you how much they raised excluding reg fees they paid.
- "Total Amount Raised" shows you how much they have raised including registration fees.
