

How to add or edit a donation (instructions for administrators)

Administrators can add donations manually on behalf of a donor or a sponsor. To do so, follow these steps:

1. Log in to your campaign admin panel (yoursite.com/admin)
2. Click "Transactions" > "Donations" in the left sidebar
3. Click "Make Donation" at the top of the window
4. In the resulting window, enter donor information for a new donor, or select an existing member
5. Select the donation recipient (General (to campaign), Member, Team)
 - Note: Member is searchable by fundraiser name or the page's campaign name
6. Enter donation details (payment type, amount, message, anonymity options)
7. Select whether the donor is a corporate sponsor (this helps for reporting)
8. Select whether to enter the donation as a pledge (a pledge will not be displayed on the campaign site, but will show up in reports)
9. Enter donation details (admin comment, date, if verified (applies to offline donation))
10. Enter billing/contact information
11. Click "Donate" to complete the donation
