

# Standalone Donation Pages

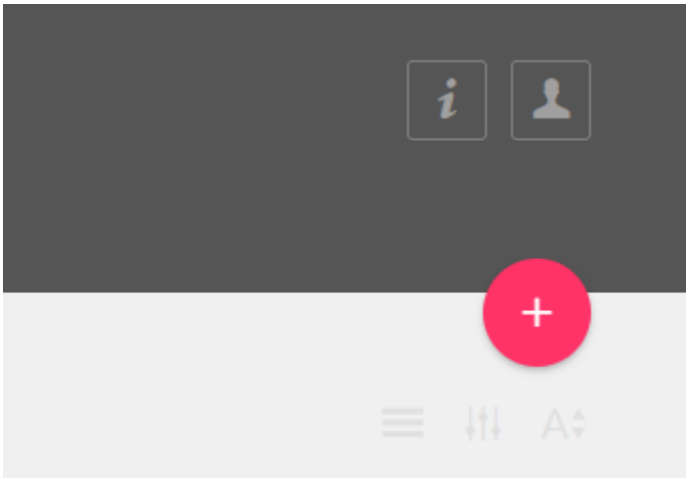

A standalone donation page is a single webpage through which organizations can accept donations. [Click here to view a sample donation page.](#)

Rallybound's donation pages include:

- Logo or organization name
- A login link (this can be disabled in the admin panel, under Settings > Campaign Settings > Various > Hide Login link)
  - When logged in, users can visit their profile section
- Main image
- Page title and paragraph text
- Donation form
- Goal module
- Social module
- Recent donations module
- Sponsors module

Most of these elements are editable, including the modules, which may be toggled on or off, as well as reordered with a simple drag-and-drop.

To create a new donation page, click the big plus in the top right of your admin.
