## New and Exciting!

### **Livestream Overlays**

Livestreamers and video producers can now include a fundraising overlay in their video productions! [Click here](#) to learn all about our video overlay feature.

## Fixed

- Administrators can now create and edit donation amount buttons on campaigns for which the default currency is not USD.
- A country dropdown field has been added to the Admin billing form (when integrating with own gateway).
- Fixed an issue recently introduced that hid the front-end "Enable Editing" buttons on embedded forms.
