

Recurring Donations

Regular giving is one of the most important ways for nonprofits to engage with their donors. Besides being a reliable source of revenue, donors who give regularly are more likely to be involved in the nonprofit's activities and advocate for its cause. For this reason, Rallybound offers a robust recurring donations system that allows donors to easily give, and administrators to easily manage, recurring donation plans. Some features available in this system:

- We offer recurring with multiple processors
- An intuitive user experience for donors to submit recurring donations
- Administrators can create and modify recurring plans in the admin panel
- Recurring reports
- Donors can view and manage their recurring plans in the user profile section ([learn more](#))

Please see below for all the details on our recurring donations system.
