

Register Multiple Participants or Children (without an email address)

A registrant is able to register additional participants during the registration process (for detailed reg) and after (for detailed and quick registration).

Update Step 2 of the Detailed Registration form

Updating the default language of the registration options (Step 2 in Detailed Registration) may help indicate to registrants that they can register other fundraisers and attendees.

Via the Admin Panel, navigate to Campaign Settings then Campaign Dictionary and make the following edits.

Dictionary Entry	Default Text	Suggested Replacement
Page Text - Registration Page (Full) - Registration CreateTeam Description	<i>Show your team spirit! Sign up your family friends, co-workers, etc. to join your fundraising efforts".</i>	You can keep this the same or replace with your own language by replacing the text in the Campaign Dictionary.
Page Text - Registration Page (Full) - Registration CreateTeam Title	Create Team	Create a Team or Register Additional Participants

This is what the Registrant will see:

Step 1 Step 2 Step 3 Step 4

Create a Team or Register Additional Participants
Show your team spirit! Sign up your family, friends, co-workers etc. to join your fundraising efforts.

Team Name: Williams Team Goal: 10000.00

Create Team

Once the user selects "Create a Team or Register Additional Participants" and enters their team or family name, the registrant will be taken to the following page:

Step 1 Step 2 Step 3 Step 4

Team: Williams

Team Captain: Danyelle Williams Team: Danyelle Williams

Your Goal: \$ 1000 **Add More Fundraisers**

Fundraiser Type: Physical Fundraiser

T-Shirt: Select

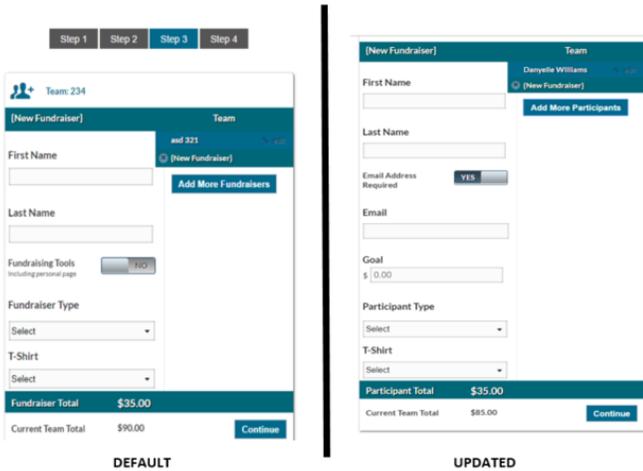

Fundraiser Total: \$35.00

Current Team Total: \$35.00 **Continue**

As an administrator, you also can modify the "Add More Fundraisers" text through the following Campaign Dictionary entry:

Dictionary Entry	Default Text	Suggested Replacement
Global - Member Term #2 (used in attendee context)	Add More <u>Fundraisers</u> (Fundraisers is the text that will be updated)	Add More <u>Participants</u>
Page Text - Registration Page (Full) - Fundraising Tools Label	Fundraising Tools	Email Address Required

If the registrant wants someone to be a **Fundraiser**, meaning the new Fundraiser will have their own fundraising page and log in, an email address will be required. Therefore, the toggle switch next to "Email Address Required" should be moved to YES (see image below). However, If the registrant does not the additional registrant(s) to be a fundraiser because they are a child and/or the original registrant will be managing the account, then an email address is not required. Therefore, the toggle switch next to "Email Address Required" should be moved to NO.

Adding registrants via the Fundraiser Dashboard

Another area where a registrant can register additional participants is through their Dashboard. This can be found within the RSVP task. If you are using Quick Registration this is great because you'll likely ask this question anyway. If you are using Detailed Registration you will want to make sure RSVP is turned on.

Under **Campaign Settings** you will want to enable these options:

- Show RSVP pop-up after "Detailed Registration" - Because RSVP is answered within Detailed Registration you will have to select to turn this feature on.
- RSVP task never gets crossed out - This is helpful to show the fundraiser they can always register additional participants. It also draws attention to this feature so they know they can register additional participants from this view
- Require members to RSVP - The RSVP question is answered in detailed registration. This is a way of guaranteeing it is asked in quick registration.

HQ Tasks:

- Select RSVP under HQ Tasks. This will show up on their progress bar on the right-hand side.
- Select RSVP under HQ Start-Up Guide if you want to ask your fundraiser to register additional participants immediately after registration.
